About Bintan: The pirate island

NATURE & HISTORY

The Island of Bintan, south of Singapore is full of history, marked by fallen empires and the spice trade.

The rich history of Bintan Island is a tale of piracy and a battle for shipping links dating back to the 3rd century. Throughout the last thousand years, countries such as Portugal, the Netherlands, Britain and Sumatra have made the comparatively small island their home, building bases, ports and even Sultanates within its lands.

Discover the natural beauty and fascinating culture of the region.
